

Entry Level Software Engineer

Job Description and Qualifications

We are looking for a smart and enthusiastic Entry Level Software Engineer to join our team which provides custom application development for the web, the desktop, mobile devices and the enterprise. The qualified candidate will be responsible for designing and developing software applications according to user requirements.

The ideal candidate is a motivated self-starter who is excited about technology. We are looking for someone who:

- loves challenges
- enjoys learning new skills
- communicates clearly
- works well independently
- works well as a team member
- receives direction and accepts guidance
- has the will and the ability to get industry certifications
- likes a fast-paced, action packed environment
- works hard
- is highly motivated

As this is an entry level position, we have realistic expectations about the existing skillset of candidates. What's important to us is hunger for growth. That said any exposure to, knowledge of and/or experience with the following will enhance attractiveness of candidates:

- HTML5
- CSS3
- JQuery
- C#
- ASP.Net MVC3
- .Net Framework 4.0
- SQL Server
- SQL Server Reporting Services
- Subversion (svn)
- NUnit
- SharePoint
- JavaScript
- InfoPath

General Requirements:

- Associates or Bachelor's degree (any major)
- Demonstrated experience of delivering on commitments

Job Description: Entry Level Software Engineer

- Strong written and verbal communication skills
- Works well in a fast-paced, deadline driven environment

Compensation and Benefits

We offer competitive benefits and compensation in order to retain top notch talent for the long term. Our benefits packages consist of the following:

- Paid time off
- 401 k
- Health, dental and vision insurance
- Direct Deposit
- Certification exam fee reimbursement
- Tuition Reimbursement
- Training Reimbursement

Application

Apply for the Entry Level Software Engineer position by sending your resume and cover letter explaining why you would be a valuable asset to our team to besuccessful@tworktechnology.com.
